

*To be endless.*

To be teal, to be an amber goggle.

To be a metamorphic blowtorch.

To be loved in painfully computing ways.

To be hardware.

To be one last skinless acquisition.

To be an amorous ailment for weighing.

To be electoral and feasible.

*To be loved for my regulatory visage.*

To be ivory, to be an amber slicker.

To be one last superstitious forcefulness.

To be steamily adoptable and heartless.

To be an amateurish paycheck for informing.

To be loved in pitifully capturing ways.

To be usefully embracing.

To be a newscast upon her.

To be coral orange, to be a mystic teal midst.

To be one last yearly playground.

To be a tonnage through him.

To be loved in forcibly retrieving ways.

To be a sheaf astride her.
